-- SUPER DEAD HEAT --

This magnificent race game can be played by 4 players at the same time.
Each participant choose one from 4 patterns of the course for his track. Thus, the combined selection of 4 track segments makes a colorful layout for the whole race course.
In addition to the basic car function the player selects during the initial tune-ip, various other functions can be collected during the race.
This is a truly exiciting car game in which you can race across 4 TV monitors.

- How to Play -

* Up to 4 people can play at the same time. If a position is available, anybody can join in the race (The game allows players to compete with each other or against the computer).
* Insert coin and press the start button. Before each race starts, each participant is asked to choose a course pattern for his monitor. Turn the steering wheel to find your favorite pattern and press the select button.
* The race consists of 9 sub-divided races: DRAG race, 1st - 7th races and FINAL race. All races have various obstacles lying in wait for you.
* After the DRAG race, players can choose a special function for his car according to the following (Use the wheel and button to choose):

  ENGINE -- increase maximum speed
  TURBO -- fast acceleration
  SUSPENSION -- super grip tires
  BODY -- increases body strength

* Cover the specified lap within the time on display and clear each race.
* During the race, you see various function marks lying on the course. (Ⓔ Ⓣ Ⓢ Ⓑ)
* Collect them to super-charge your car. If you collect all of the function marks, you car becomes an almighty super-car. However, upon explosion or falling into the water, the car function reverts back to the initial setting.
* If you fail to reach the goal before the timer reads "0", you are out.
* After successfully compliting the FINAL race, your rank is displayed and a testimonial is issued. A gold and a silver plates are awarded to the 1st and 2nd rank holders respectively, and a copper plate to the 3rd to 5th.

Specifications

Height.....1,820m/m (72 inches)
